In Re: USM-285 Marshall Forms
04-201-JJF

Dear Mr. Dalleo:

I have included this letter to you with 26 USM-285 Marshall Forms. I was perplexed that Court docket sheet failed to input them earlier, as I am certain that your Office should have received them. On ~~both~~ brown envelopes, I made notation that one brown envelope was #1 of 2, and the other was #2 of 2. So, I fail to see how second envelope could have shown up without first one. I hope that these ~~forms~~ complete the Marshall Form process.

Secondly, some procedures in your Office have disturbed me and may have compromised the integrity of the Court. I noticed that the docket sheet contains the name Richard Eugene Seifert. This ~~defendant's~~ middle name was not known to Plaintiff, so I am pondering how your office came to know this defendant's middle name. Does someone in your Office know this defendant personally?

Also, I find it unsettling that prisoner-plaintiffs are required to request USM-285 Marshall Forms from prison law librarian instead of your Office as other Plaintiffs do. Not only does this give the prisoner-defendants a "one-up" by putting them on notice that they are being sued, it creates an institutional spy network that is proba-

bly the cause of sabotage to previous Marshall Forms.

Finally, it was brought to my ~~attention~~ that our prison law librarian called your Office to inquire about the number of outstanding Marshall Forms. This prison law librarian also happens to be a defendant in this prison case. I know of no other instance where Defendants are permitted to inquire into Plaintiff's cases before being served with complaint. I trust that you and the Court will re-examine these policies of ex parte communications and/or personal contacts that may jeopardize the fairness and integrity of case.

Sincerely,
Kevin L. Dickens

I/M Kevin L. Dickens
